Profile Summary

o Insightful computer engineer, in am B.Tech graduate, I have also completed multiple certificate courses related to my field of education.
o Looking for a position that will allow me to improve my current programming, communication and team work skills.
o In the process, also aiming to learning new skills to add to my current skill set.

Work Experience

Full Stack Developer Intern	
Digital Salt Technologies, Mumbai	**Oct 2024 – Current**

Responsibilities:

o Enhanced skills in UI development by working with libraries like ShadCN, Mantine UI, and Material UI to build responsive, modern user interfaces.
o Developed and maintained a Node.js server for API functionality in a live Book Management application, allowing users to scan bookshelves and add books to their digital library.
o Created boilerplates for React.js, Next.js, and Node.js, streamlining project setup and providing fellow developers with standardized templates to accelerate development and ensure consistency across teams.

Full Stack Developer Intern	
NullClass.com, Mumbai	**June 2023 – Sept 2023**

Responsibilities:

o Developed a Question Answering System in React to enhance UI/UX and built APIs in Express for real-time configuration updates to edge servers.
o Mentored team members and led the development of a Subscription Management platform for user access to premium features.

Conducted a Full Stack Development Seminar [Django]	
Atharva College of Engineering, Mumbai	**June 2023 – Sept 2023**

Responsibilities:
o Explained the benefits of using Django, its underlying principles, and demonstrated how to leverage Django features to build RESTful APIs.
